

Restoring Hope & Home Renovations and Expansion Coming to Restoring Hope Transplant House

About Restoring Hope:

Restoring Hope Transplant House is a non-profit home in downtown Middleton that offers comfortable and affordable housing to organ and bone marrow transplant patients and their caregivers while they are in the Madison area receiving life-saving care at nearby University of Wisconsin Hospital and the William S. Middleton Memorial VA Hospital.

Since 2013, RHTH has welcomed guests from 44 states and 8 other countries while in search of a second chance at life through the miracle of transplantation.

Al from La Crosse has stayed at RHTH caring for his wife. He has been a proud Lion since 1977.

Follow Our Progress:

We have the unique opportunity to honor the historic beauty and charm of this iconic house and at the same time create a more welcoming and updated home-like environment for our family of guests. Construction timelines can be fluid especially in a global pandemic, but current projections have construction set to start in October. Excitement is building!

Helping Generations Of Transplant Families With Your Support:

The foundation of RHTH is largely built upon the support of Wisconsin Lions. We would not be at this point without clubs like yours believing in our dream. As we continue through our pre-construction timeline, we are convinced more than ever that now is the perfect time to start construction in order to make this house as pandemic proof as possible for our families once normalcy returns. The costs, however, are mounting and during a pandemic in which virtually every fundraiser we have had has been cancelled, the challenges of raising funds as a non-profit are at an all-time high. We can feel the excitement building with so many of our Lions friends sharing in our joy of creating a home that will be built to last for future generations of transplant families. This is an exciting opportunity to leave a lasting legacy. Please help our efforts by making a donation today!
